

MAXWELL CLASS

Premium equipment. Proven cable systems.

Maximum utility.

5,250 t

Combined FO cable capacity

DP2

Station-keeping design

1,500 kWh

Battery energy storage

100

Persons on board

SMD PARTNERSHIP + DIMENSION EXPERTISE

Top-of-the-line equipment. Integrated capability.

SMD cable drum engines

Twin 40 t cable drum engines supplied through the SMD partnership for fibre-optic cable operations.

Dimension cable system

Class-leading, proven power cable laying system with a 2,250 t dual-mode carousel for power and fibre-optic cable.

SMD MD3-XT plough

SMD partnership for deep ploughing and trenching support, with burial depths up to 3.3 m, subject to seabed conditions.

MISSION VERSATILITY Long-distance fibre-optic lay and repair / Inter-array cables and electrification / Deep ploughing and trenching / Walk-to-work readiness and offshore wind accommodation support

OPTIONAL UPGRADES 150 t AHC crane / 1,000 hp ROV / Motion-compensated gangway
